

Greenscreen Balance

Metallised and plain, 3% openness Greenscreen Balance Sunscreen

Features

With its 2x2 basket weave, Greenscreen Balance provides a modern design with a consistent weave look. It is woven from 100% Trevira CS yarn, providing inherent fire retardant properties. The fabric has been designed to reduce light and glare whilst protecting against harmful UV rays.

Care Instructions

Dusting with a feather duster is all that is required to keep your fabric looking good. For the removal of dirt and grime, simply wipe fabric skins with a sponge soaked in lukewarm water. If marks are still visible, add a little detergent. Then dry gently with a clean cloth.
